# HERE'S HOW

Immediately place this Scorecard in a prominent place in your home. Either on the refrigerator or the bulletin board. Someplace where it will be an easy daily reminder of the products involved in the program.

Familiarize yourself and your family with the products listed in the Scorecard and what items are to be saved. Put all your proofs of purchase items in a bag in the kitchen. This will show you how well you are doing and see how easy it is to participate.

There are two turn in dates listed in the Scorecard. Your team leader or coordinator is the one responsible for gathering up all the proofs of purchase items to be turned in. You can make their job easier by sorting and counting the proofs of purchase you have saved. Yes, your group can participate in both turn-ins. Make sure you keep your Scorecard up until the end of the program.

Get your neighbors, family and friends involved. The more people you have saving, the more money your group can earn. They won't mind, it's like being paid cash for trash.
